

UF Information Technology

Internship Title: Networking Internship

Department: Infrastructure Communications and Technology

Work Location: Ayers Building at 720 SW 2nd Avenue Gainesville, FL 32601

Brief Description of Internship:

This internship position will aid in setup and deployments of network equipment. This position will also aid in the documentation of deployed networks across campus. The UFIT Field Operations teams consists of network technicians and network engineers. We bring years of experience to refresh and troubleshoot the network equipment buildings on and off campus. The UFIT Field Operations teams serve over 400 buildings for UF.

Specific Duties:

- Assist in deployment of Network Switches, Access points and UPSes
- Assist in the physical setup for new network deployments
- Assist in documentation for new network deployments
- Assist in wireless site surveys.

Hours Per Week: 10 - 15 hours per week

Qualifications Needed:

- Background in Excel
- Strong writing and grammatical skills
- FBI background check required

Learning Objectives:

- Basics to layer 2 and Layer 3 network setups
- Basics to wireless design and remediation
- Able to create and edit network documentation
- Develop effective work habits, including time management, punctuality, and personal accountability related to the work and its function in the economy
- Demonstrate openness, inclusiveness, sensitivity, and the ability to interact respectfully with all people and understand individuals' differences
- Identify, write down, and carry out performance objectives (mutually agreed upon by the employer, the UFIT experiential learning supervisor, and the student) related to the practical experience in their internship
